

Blacksmith Shop

The Blacksmith's Shop has all the tools of the trade, come and see how they made tools, horse shoes, and knives in the days of early metal craftsmanship.

We have an annual Hammer-In Blacksmith Workshop in September. Call the museum for details 530-629-2653. The museum is looking for someone to take the blacksmith shop and use it if it were their own. It is well equipped. Now is the time to check it out and get involved.
